Boston College Department of Economics

Econ 3317.01-.02 – Economics of Inequality Campion 200 Professor Geoff Sanzenbacher Day/Time: MW 4:30pm, 6:00pm

Phone: 410-259-9437 Email: sanzenba@bc.edu Office Hours: 204 Hovey House, 4:00-5:00pm Friday or by Appointment. Iclicker Device: Should be purchased, will be used frequently in class.

Economics 317 is designed to teach about the structural economic factors that result in or lead to inequality in economic outcomes and opportunity. The course will offer a distinction between inequality in opportunity and inequality in outcomes and will discuss policies currently in place and those that have been suggested to attempt to alleviate these inequalities.

<u>Class Etiquette</u>: Please refrain from using computers during class. If you would like to have copies of the slides, you can print them from online prior to class. I will post the slides as PPTs on Canvas prior to class and I recommend printing four slides per sheet.

Attendance and participation (5 percent of grade): We are using Iclicker, which will help me keep track of attendance and participation. You can miss up to three classes without excuse. The Iclicker needs to be functional by **September 12th**, **2018**. After three misses there is a 0.5 percentage point deduction per class missed unless excused. You do not need to e-mail me if you miss three or fewer classes. On your fourth class or later, send an e-mail with <u>"Request for Excused Absence"</u> as the subject and provide a reason in the body of the e-mail, I will let you know if excused or not.

Course Organization and Expectations

Lectures: There are two lectures per week most weeks, save for holidays (See schedule below). There is 5 percent attendance and participation grade for the course, attendance is also required to do well on the exam and papers.

Readings: I will be providing an important academic article online each class along with discussion questions. You will be required to know answers to discussion questions for the Midterm and Final Quiz.

Integrity: Please familiarize yourself with the "Academic Integrity" section of the Boston College Catalog, which is also available online.

Canvas: I will be using Canvas to provide you with a variety of information, including handouts I will create, any assignments, and I will post the article readings for the class there.

In conclusion, let me say welcome to the course! Economics is an exciting subject area that will help you better understand the world you live in. Please keep up with current events and feel free to ask me about them in class.

Good luck! Here is a brief outline of the course and reading assignments.

Date	<u>Topic</u>	
August 27 th	Introduction What do we mean by inequality?
